AWESOME EDUCATIONAL CHILDREN'S PROGRAM for kids age four and older (children MUST be 4 or older to participate in this program) organized by Mrs. Block, Mrs. Caby, Ms. Sturgill and Mrs. Zurek and taught by Ms. Abel, Mrs. Bonnem, Mrs. Chandler, Mrs. Gifford, Mrs. Howell, Mrs. Loiben, Ms. McNair, Mrs. Medbery and Mrs. Vynnyk. Kids 4 years old through 1st Grade will learn how to identify their basic needs and meet them responsibly through age-appropriate educational activities which include "Around-the-World" themed team-building games, physical exercise, creative projects and story-telling. Kids in 2nd Grade and older will focus on how to develop and maintain quality friendships through an engaging and fun science experiment and team-building games. A snack will be provided.

only $5 per family

All attendees entered in raffle for great themed prizes.
THANK YOU to Philly G's & Tavern on 60 for catering our delicious Lunch

Super Fun AND Educational for kids of all ages!

Consequences-Discipline vs. Punishment & The Home-School Connection

Last year, Kim Olver presented her Empowerment Parenting workshop. We are thrilled to have her back again, this year presenting on an ALL NEW TOPIC...the art of using consequences in a way that will enhance a long term healthy relationship with your child rather than harm it. There will be ample opportunity for you to ask your specific questions and to learn how our teachers and staff connect the same ideas Kim discusses to their teaching and interactions with students during small breakout sessions facilitated by Mrs. Carson, Mrs. Gerjol, Mrs. Manchester, Mrs. Motley, Kim Olver and Mrs. Szoke.

Building life-long, meaningful, strong relationships with our children, spouses, friends and family is the key to increasing happiness and decreasing stress! Join us to find new ways to improve your connections with others. Kim Olver's entertaining style is infused with humor, fun and great instructional anecdotes. Kim is the author of many books, including: *Secrets of Happy Couples*, *Leveraging Diversity At Work* and *Empowerment Parenting*.

If you have any questions, please contact: Nicole Carson at (847) 858-5602 or nc.longdon@gmail.com.

Children's Program Description

Age 4-Grade 1: At check-in, the children will rotate through game stations in the gym. After all the children have checked in, they will be divided into small groups and participate in different rotations themed around the basic needs (Love, Power, Freedom, Fun and Survival) and our school-wide Read-Around-The-World program.

Love & Belonging: Mrs. Howell and Mrs. Loiben will build a love for self, as students locate their place of belonging on a world map. Students will use and decorate a take home map to make personal connections about themselves and the world in which they live. Students will then enjoy a fun and loving snack.

Power: Ms. Sturgill and Mrs. Bonnem will read the students the book "If Everybody Did," facilitate a discussion about how positive actions we take to help others and our planet help us feel powerful inside, and design a picture on what makes the children feel powerful and how their powerful actions can improve the world.

Freedom and Fun: In this session run by Mrs. Vynnyk and Ms. McNair, students will participate in music and dance games featuring songs from a variety of different countries and continents. Students will have fun while having the freedom to move their bodies along with the various genres and styles of music.

Survival: Mrs. Caby and Ms. Abel will lead a discussion on what the kids need to feel safe and survive in the world by working together to travel the continents without falling into the "ocean."

Grades 2 and up: The older students will focus on learning how to develop and maintain quality friendships with a fun, super slimy science experiment! All kids will be given the opportunity to make their own putty to take home. In the putty, items will be added to represent the qualities of what makes a good friend. We will also demonstrate such qualities through trust and team building exercises. This amazing program is taught by Mrs. Block, Mrs. Chandler, Mrs. Gifford, Mrs. Medbery and Mrs. Zurek.

All children will also enjoy a snack during both programs.
